### EDUCATION to UNDERSTAND CURRENT IMMIGRATION POLICIES

(From Pastor April)

I've been extremely grateful to Dr. Austin Kocher, professor at Syracuse University, and graduate of THE Ohio State University. I met Austin years ago and am so impressed with his integrity as a human and follower of Jesus. His current goal is to provide clear, un-biased information about current immigration issues so that the public can more readily make sense of and understand the implications for our communities. I find his articles incredibly helpful to parse through the many policies and help translate what that will mean. He is not aligned with any political party for this work. It is simply to make the information more accessible.
